blood flow and static imaging in brain death, 152
blood flow imaging, 373
blood flow imaging in acute mesenteric vascular occlusion, 170
brain imaging and CAT scanning in subdural hematoma, 154
caseating tuberculoma on thyroid imaging, 521
cerebral infarction, 310
EKG gated first pass imaging, 143
joint imaging in rheumatoid arthritis, S28 (abs)
medullary carcinoma of thyroid, 45
pediatric nuclear cardiology, 373
quantitating early thyroid uptake, S23 (abs)
scintigraphic sequelae of superior vena cava obstruction, 89
sluggish perfusion in hepatic hemangioma, 465
stannous ascorbate as a reductant, S14 (abs)
synovial hemangioma, 517
testicular imaging, 237
thyroglossal duct cyst, direct injection of, S24 (abs)
thyroid imaging, combined with I-131, after thyroidectomy, 415
thyroid imaging in thyroid storm, 66
- Technetium-99m-sulfur colloid**
accumulation in lung, liver after disseminated intravascular coagulation, 241
A-V fistula and subcapsular hematoma of spleen, 70
comparison with Tc-99m-diethyl-IDA, 341
functional asplenia in Sezary syndrome, 149
gastric emptying time, S43 (abs)
gastroesophageal reflux, S44 (abs)
"hot spot" on liver imaging due to inferior vena cava obstruction, 492
"hot spot" on liver imaging due to innominate vein obstruction, 514
"hot spot" on liver imaging due to superior vena cava obstruction, 489
"hot spot" on liver imaging due to tricuspid insufficiency, 494
hydatid cyst of the liver, 25
nonvisualization of left lobe due to atrophy or aplasia, 63
pleural-peritoneal communication, 255
return of splenic function after iatrogenic splenic artery occlusion, 516
sarcoma involving spleen, 323
sluggish perfusion in hepatic hemangioma, 465
spleen imaging in infiltrating carcinoma of pancreas, 320
subacute hepatic necrosis and chronic hepatitis, 13
thyroglossal duct cyst, direct injection of, S24 (abs)
unusual liver displacement following right pneumonectomy, 35
vascular dynamics of "hot spots" on liver imaging (editorial), 525
- Testicular imaging**
using pinhole collimator, 237
- Thallium-201 imaging (extracardiac)**
medullary carcinoma of thyroid, 45
- Thallium-201 myocardial imaging**
comparison with gamma camera and computer reconstructed multiplane tomography, S68 (abs)
in pediatrics, 425
using rotating slant-hole collimator, S67 (abs)
with complete pathological correlation, S73 (abs)
- Thallium-201 redistribution imaging**
coronary artery disease and, 292
preoperative assessment of reversible myocardial asynergy, S71 (abs)
quantitative analysis, S3 (abs)
- Thallium-201 stress myocardial imaging**
and redistribution in coronary artery disease, 292
comparison of multiple pinhole tomography and planar imaging, S69 (abs)
comparison with radionuclide ventriculography after infarction, S72 (abs)
dilatation of LV cavity as indicator of ischemic disease, 289
quantitative analysis, S3 (abs)
quantitative in coronary artery disease, S70 (abs)
- Thyroglossal duct cyst**
imaging with direct injection of Tc-99m-SC or pertechnetate, S24 (abs)
- Thyroid gland function**
quantitating early pertechnetate uptake, S23 (abs)
- Thyroid gland imaging**
caseating tuberculoma of neck seen on, 519
combined I-131 and Tc-99m after thyroidectomy, 415
dimensions and mass determined from gamma camera and computer, S24 (abs)
fluorescent thyroid scanning, 71 (Atlas article)
in thyroid storm, 66
medullary carcinoma, 45
multinodular goiter with bone imaging agent, 561
stippled hypofunctioning thyroid nodule, S25 (abs)
- Thyroid gland therapy**
comparison of ipodate and propylthiouracil, S26 (abs)
I-125 and I-131 in hyperthyroidism, 327

supervoltage therapy in Graves' ophthalmopathy, S21 (abs)
 thyroid dysfunction after radiotherapy in children with Hodgkin's disease, S22 (abs)

U

Ultrasound

compared with Tc-99m-HIDA in acute and chronic cholecystitis, S40 (abs)

X

Xenon-133

cerebral blood flow, S12 (abs)
 myocardial blood flow with silicon avalanche detector, S66 (abs)
 regional cerebral blood flow, S61 (abs)
 ventilation imaging with tumor, 316
 ventilation-perfusion mismatch in bronchogenic carcinoma, 520
